\$200 BILLION FOR JOBS AND EDUCATION NOT FOR WAR IN IRAQ!

Millions of people around the world are marching against a new war in Iraq

The people of Iraq and the Middle East are not our enemy. We call on the people of the United States to act now to stop Bush's planned war of aggression.

Poverty is soaring while social programs are being diverted for a war and occupation of Iraq. The government plans to spend \$200 billion (a conservative figure) so that ExxonMobil, Texaco, Citibank, Chase and the other Big Oil and banking corporations can take control of and profit from the oil of the Persian/Arabian Gulf. The Bush administration has no right to carry out so-called "regime change" in Iraq. Their goal is not to create a more democratic or humane government, but rather a U.S. puppet regime in this oil-rich region.

Bush is lying to the people when he says that Iraq poses a grave and imminent danger. Don't believe the hype. Remember these facts: The U.S. is bombing Iraq almost everyday but Iraq is not bombing the United States. Iraq has never possessed a nuclear weapon but the U.S. government has 6,000 nuclear weapons. Iraq's neighbors, including Saudi Arabia, oppose a war.

A new war will be a catastrophe. In the 1991 Gulf War, as many as 200,000 Iraqis were slaughtered. The Pentagon experimented with the use of depleted uranium weapons, subjecting soldiers and civilians to vast toxic exposure. According to the Veterans Administration, over 30% of U.S. Gulf War veterans are receiving disability benefits for illness and injury. We don't want to send the sons and daughters of working people to kill and be killed and to be physically and psychologically maimed in a war for Big Oil.

More than 1 million Iraqi civilians, mostly children, have already died from U.S.-imposed economic sanctions in the last twelve years. At the same time, the U.S. daily sends \$15 million to support the Israeli military's murderous war of occupation of Palestinian land. When U.S. war planes and attack helicopters kill innocent people everyday -- in Palestine or in Iraq -- the people of the region consider this to be a policy of U.S.-supported terrorism. This can only lead to an escalation in the cycle of violence.

The thousands of people who are coming to Washington D.C. and San Francisco on January 18 honor Dr. Martin Luther King and his legacy. Like Dr. King did during the Vietnam War, we will demand that hundreds of billions of dollars be spent on jobs, education, housing, healthcare and to meet human needs -- not for wars of aggression in the Third World.
